Signature of Donor:	Date:	

#### **About KidWorks**

- KidWorks believes that life change happens through relationship. Starting in preschool, we walk alongside students and their families, equipping them for a brighter future.
- We believe every child is born with unique gifts and talents that can be used to impact our world and create meaningful, lasting change in our community.
- From an early age, KidWorks students are provided with a clear path and support toward higher education and a future career.
- While we are committed to seeing our students thrive academically, grades do not define a person nor is it the sole focus of our programs.

### **Our Impact**

Since 1993, in partnership with our donors, thousands of lives have been positively impacted. Our grads serve as role models, equipped with a foundation of faith, a sense of purpose and a passion for service.

- 100% of high school students graduated on time and pursued higher education in the fall.
- 97% of KidWorks youth served in a leadership role in the classroom or in the community.
- 89% of preschool students assess as kinder-ready when entering public school.
- 79% of 4th 12th grade students feel confident in their God-given abilities.
- 73% of KidWorks first generation college students are on track to graduate with a degree.
